Replacement Turbochargers and Core Assemblies for Deere 6068

BorgWarner Aftermarket North America is pleased to announce the release of four new replacement turbochargers for popular Deere 6068 engine applications. These engines are found in power units and construction equipment.

Replacement Core Assemblies (CHRA) are now available as well, and all of these units can be serviced with existing repair kit P/N 318382 and gasket kit 318418.

As the first-fit supplier to the OE on these applications, your customers can be assured of robust, reliable service from a trusted supply and technology partner to the commercial-diesel industry.

Please contact your BorgWarner Regional Sales Manager for order details today!

Complete cross-reference and supporting detail is found on page two of this bulletin.

All numbers, names and descriptions herein are used for reference purpose only and do not imply that they are the product of the original manufacturer.
